

Sterling Strauser Gallery at ESSU

There has been strong interest in the Sterling Strauser Collection and Gallery which we were instrumental in founding at East Stroudsburg State University. The goal is to honor this significant Modernist artist along with his wife Dorothy, a gifted artist in her own right, for their considerable contributions to American art, especially in the field of folk and outsider art. ESSU's Kemp Library has placed information on-line including several interviews which discuss various aspects of the effort and which also speak to Strauser's art and life.
